

Release Information

Virtual Studio Manager – VSM

vsmStudio Hotfix Release 26.1.2_2 (B2503)

Author: STB
Last updated: 2026-06-25
Release Date: 2026-06-25

Hotfix 26.1.2 – A hotfix is to be used exclusively to address a specific situation and may contain untested aspects both related and not related to the specific situation.

This Release introduces new features, enhancements, and fixes for the vsmStudio software. Please consult the changelog for additional details.

Release Content

- RNDVSM-51344: Option to enable browser page item caching.
- RNDVSM-51372: Some communication ports not initialized after switching to GUID identifiers.
- RNDVSM-51373: Sources with same multicast could interfere with format change processing.
- RNDVSM-51376: markToActivate requested directory on already assigned gadget parameters.
- RNDVSM-50868: Potential race condition in asset store might cause crash.
- RNDVSM-51302: Bridge SND only flows not counted against active flow count causing flow to be released.
- RNDVSM-51354: GVG Ethernet Tally connections were not migrated.
- RNDVSM-51356: Added the option to view the usage of storage bins in the context menu.
- RNDVSM-51349: Queued GP-I/Os might be carried over and executed in the new configuration.
- RNDVSM-51339: Queued Notifications might carry over into new configurations notification queues.
- RNDVSM-51351: StageTec Nexus Matrix 5 connections were not migrated correctly.

Software-Download

The latest VSM software release versions can be downloaded from the Lawo Download Center @ <https://lawo.com/lawo-downloads>.

As always, **before updating, backup your system and refer to the changelogs/ release notes** of each component to see if your system can be updated. Please also make sure to check and understand all changes, as well as any known issues that may be stated in the changelogs.

As upgrades may introduce a file format change [FFC], which implies incompatibilities of the configuration file of vsmStudio, please make sure to create a backup of your VSM directory and storage folders before you upgrade.
