Virtual Studio Manager – VSM

vTimeSync Release 4.5.3.0

Author: STB
Last updated: 2024-03-19
Release Date: 2024-03-19

This Release introduces enhancements, and/ or fixes for the vTimeSync application. Please consult the changelog for additional details.

Please note that vTimeSync 4.5.2 and higher requires basic authentication (local windows user login) to access the configuration UI.

Including

- **While the default installation path has changed to 'D:\vsm\vTimeSync' with version 4.5.x, the installer will now check the previous installation path and, if necessary, copy the configuration file to the new installation path.**

Software-Download

The latest VSM software release versions can be downloaded from the Lawo Download Center @ <https://lawo.com/lawo-downloads>.

As always, **before updating, backup your system and refer to the changelogs/release notes** of each component to see if your system can be updated. Please also make sure to check and understand all changes, as well as any known issues that may be stated in the changelogs.

A backup of the VSM directory is recommended before upgrade.
