Virtual Studio Manager – VSM

vTimeSync Release 4.5.6.0

Author: STB
Last updated: 2024-06-20
Release Date: 2024-06-20

This Release introduces enhancements, and/ or fixes for the vTimeSync application.
Please consult the changelog for additional details.
**Please note that vTimeSync 4.5.2 and higher requires basic authentication
(local windows user login) to access the configuration UI.**

Including

- Added two more host client fields to the webUI. Now it is possible to configure up to 6 host clients.

- Fixed a typo in the vTimeSync.config.xml.

- The installer now supports the TARGETDIR parameter to override the installation path when using e.g., unattended mode.

Software-Download

The latest VSM software release versions can be downloaded from
the Lawo Download Center @ https://lawo.com/lawo-downloads.

As always, **before updating, backup your system and refer to the changelogs/release notes** of each component to see if your system can be updated. Please also make sure to check and understand all changes, as well as any known issues that may be stated in the changelogs.

A backup of the VSM directory is recommended before upgrade.
