Release Information

Virtual Studio Manager – VSM

vsmGear Release B0039

Author: STB
Last updated: 2024-07-22
Release Date: 2024-07-22

This Release introduces enhancements, and/ or fixes for vsmGear.
Please consult the changelog for additional details.

Including

- The new version is now 6.00 for GPIO-Box with HOME support.
- Increased the TCP Window size to avoid zero window scenarios during startup.
- Reduced clock speed for E3 buttons to avoid reported display issues.

Software-Download

The latest VSM software release versions can be downloaded from
the Lawo Download Center @ https://lawo.com/lawo-downloads.

As always, **before updating, backup your system and refer to the changelogs/release notes** of each component to see if your system can be updated. Please also make sure to check and understand all changes, as well as any known issues that may be stated in the changelogs.

A backup of the VSM directory is recommended before upgrade.
