- **Enhancement and fix for Telestream (Tektronix) PRISM [1.0.22.0]**
- **Fix and update for Arista CVX [1.0.36.0]**
- **Fix and update for C100 [1.4.21.0]**
- **Possible fix for high CPU usage related to frequent mapping file updates**

Software-Download

The latest VSM software release versions can be downloaded from
the Lawo Download Center @ https://lawo.com/lawo-downloads.

As always, **before updating, backup your system and refer to the changelogs/release notes** of each component to see if your system can be updated. Please also make sure to check and understand all changes, as well as any known issues that may be stated in the changelogs.

A backup of the VSM directory is recommended before upgrade.
